## CFP Professionals by Territory

“Doubling the number of CFP professionals globally since FPSB’s creation in 2004 and increasing the number of CFP professionals ten-fold since CFP certification first went international in 1990 is a tremendous accomplishment,” added Maye. “This effort is thanks to FPSB’s global network of certification bodies and the hundreds of thousands of CFP professionals worldwide who commit to rigorous standards of competency, ethics and practice, and to delivering financial planning in their clients’ interests.”

FPSB and the global FPSB Network are committed to establishing financial planning as a global profession, with CFP certification its symbol of excellence. To maintain growth and relevance in existing territories, and introduce financial planning and CFP certification to new territories, FPSB and the FPSB Network will continue to develop, enforce and promote rigorous competency, ethics and professional standards and certification requirements for financial planning; promote the value of financial planning and CFP certification to the public; and future-proof the financial planning profession and CFP certification by focusing on the needs of next-generation financial planners and their clients.
