The FPI Professional Practice of the Year Competition

Background

The FPI Professional Practice of the Year competition was first launched in 2020 where the winner was announced at the prestigious FPI Annual Convention Gala Dinner. This event is widely covered by the media and well attended by key stakeholders such as regulators, educational providers and other important industry role players.

The competition has been developed to include an initial desktop audit and a site visit where a range of criteria is evaluated such as the practice's practice management abilities, skills and overall knowledge and practice of holistic financial planning. The desktop audit and site audit results are then evaluated by executives and CFP®-professionals of FPI in order to determine the winner. The three runner ups will be invited to the mentioned gala dinner.

Objective
